Words carrying singular number shall also include plural and vice Versa, where context requires.

3. Headings:

The headings in these general conditions are solely for the purpose of facilitating Reference and shall not be deemed to be a part there of or be taken in to consideration in the interpretation or construction thereof or of the contract.

4. Law Governing the contract

The contract shall be governed by the law for the time being in force in the Republic of India.

5. Services of Notices of contract:

The Contractor shall furnish to the engineer / consultant the name, designation and address of his authorized agent and all completes, notices, communication and reference shall be deemed to have been duly given to the contractor if delivered to the contractor or his authorized agent or left at or posted to the address so given and shall be deemed to have been so given in the case of posting on the day on which they would have reached .such address in the ordinary course of post by partners. Any charge in the

constitution of the firm shall to come forth it is to be notified by the contractor to the Engineer /Consultant.

6. Occupation and use of Land:

No land belonging to or in the possession of APL shall be occupied by the Contractor without the permission of APL. The contractor shall not use, or allow to be used to site for any purpose other than that of executing the work.

7. Commencement of works:

The contractor shall commence the works within 7(seven) days of the receipt by him of an order in writing to this effect from the Engineer/consultant and shall Proceed with the same with due expedition and without delay.

8. Work during Night:

The contractor shall not carry out any work between sunset and sunrise without the previous written permission of the Engineer.

9. Tender Documents available for inspection:

Tender documents consisting of the design drawings, schedule of quantities and rates of the various items along with their description and complete specifications and the set of G.D & C.C or any other documents required in connection with the work signed for the purpose of identification by the Engineer / Consultant shall be open for inspection by the tenderers at the office of the engineer during office hours on all day (except Sunday and holiday).

10. Incomplete tender papers:

If a tender issued to an intending tenderer is incomplete he shall request the office of Engineer / Consultant to complete the same before he delivers his tender.

11. Earnest Money and security Deposit:

The tenderer should deposit earnest money @ 2% of the total estimated cost of the project in one of the following forms to the Assam Petrochemicals Limited payable at Guwahati, and attach receipt thereof with the tender. On acceptance of the tender, the earnest money deposited by the contractor with his tender will be retained by APL as part of the security for the due and faithful completion of the contract by the contractor. The balance to make up the security deposit which will be 10% of the total value of the contract (unless otherwise specified in the special conditions if any) shall have to be deposited by the contractor either in cash if the form of Govt. Securities, Bank Guarantees or it may be recovered by percentage deduction from the contractor's 'on accounts' bills.

The earnest money shall be deposited by the tenderer in any of the following forms:

- a) Demand draft drawn in favour of the Assam Petrochemicals Limited payable at Guwahati,
- b) Deposit at call receipts of any scheduled Bank.

Earnest money shall not be accepted in any form other than these specifications above and the tender not accompanied by E/M in the proper form may not be considered.

No interest will be payable on the earnest Money or the Security Deposit or the amounts payable to the contractor under the contract.

12. The tenderer shall study all the tender documents very carefully. He should visit the site and satisfy himself as to the local conditions, the accessibility of the site, the full extent and character of the operation, the nature of the ground. The type of the machinery and the equipment needed the condition affecting the supply of materials and labour and the execution of the contract generally. No claim on the ground of want of knowledge in such respects will be entertained.

13. Contractor to provide facilities to other contractors:

The contractor must note that in case building work sanitary and water supply work, electrical installation work or other works are awarded to

different contractors, the activities of all the contractors shall be required to be properly coordinated and all

Contractors shall strictly follow the instructions and directions of the engineer/ consultant / The building contractor shall also permit free of charge, the use of his ladders and ordinary scaffolding (as may be available in position)to the plumbing sanitary and electrical contractors . The building contractor shall, however not be required to make any special scaffolding for other contractor.

14.Tender by other than Individuals:

When the tender submitted is not in the name of an individual, the tenderer shall Disclose the nature, constitution and registration of the tendering firm and shall be signed by persons or a person duly authorized by the firm by means of legally valid document which (or a duly certified copy of the same) shall be attached with tender. For illustration, in the event of tender being submitted by a partnership firm, it must be signed separately by each partner, or in the event of the absence of any partner, it must be signed on his behalf by a person holding a power of Attorney authorizing him to do so, such power of attorney to be produced with the tender and it must disclose that the firm is duly registered under the Indian Partnership Act.

15.Tender to quote both in figures and works :

The tender should quote in figures as well as in words the rates for each item. He should clearly mention the amount against each item and strike the total where ever necessary. Special care should be taken that the percentage/ the rates are always written in both works and figures in way that interpolation is not possible. The word 'Rs' should always be put before and word "only" at the end of the words of figures e.g. Rs. 250.00 only. Erasures or over writings of any kind in the tender may render the tender subject to out right rejection. Where necessary, the original figures and words should be scored out end corrected figures and works written and the corrections attested by the tenderer with his signature & seal.

16. Declaration of tenderer's relation with APL employees:

Should a tenderer or a contractor or a share holder (in the case of a firm or Company or contractors) have a relation employed in the capacity of Asst. Engineer and above in APL, the tenderer shall inform APL of such fact at the time of submission of the tenderer, failing which APL may in his /their /its Sole direction, reject the tender or rescind the contract in accordance with provisions of clause 66.

17. Not to assign any reason for rejection of Tender:

The acceptance of tender will rest with APL who does not bind himself/itself /Themselves to accept the lowest tender and reserves the right (I) to reject any or all tenders or (ii) to split up the work in parts amongst two or more contractors or (iii) To accept the work in part and not in its entirety, if considered expedient, without assigning any reason or giving any explanation thereof.

18. Tender liable to rejection:

The following tenders will be liable to summary rejection:

- i) Tenders submitted by tenderer, who resort to canvassing.
- ii) Tenders which do not fulfill all or any of the conditions laid down in the tender documents or are incomplete.
- iii) Tender which contain uncalled for remarks or any alternative/added condition.

19. Tender bound by his quotation:

The rates quoted in the tender are to hold good for 12 (twelve) months from the date opening of the tender after which the rates are to be confirmed by both the parties before executing the contract. No tenderer can withdraw his tender or revoke his tender or revise the tendered rates unless advised or permitted by APL for any items within the aforesaid period of 12 (twelve) months. If a tenderer withdraw or revoke his tender or revised the tendered rates for any items within the aforesaid period of 3 months without being permitted by APL, his earnest money will be forfeited.

20. Contractor to Execute Agreement:

The contractor's responsibility under this contract will commence from the date of issue of the letter accepting the tender. This letter of acceptance tender documents and the formal work order shall constitute the contract. The successful tenderer shall be required to execute an agreement with APL within 7(seven)days of the receipt by him of the letter of Acceptance, for carrying out the works according to the GD&CC and specifications of works and materials as may be given in the tender documents and special conditions of contract. The agreement to be executed will be in Agreement from of the works to be specified by APL. The provisions contained in tender documents and any other Documents exchanged between the tenderer and APL shall form part of the contract.

21. Compensation for Non –commencement or delay in completion of the work:

Time shall be regarded as the essence of contract and the failure on the part of the contractor to complete the contract on the dates stipulated in the tender and the work orders for the completion of the respective works shall entitle APL to recover damage from the contractor by way of mutually agreed damage or sum equivalent to one half of one percent (subject to a max. of ten percent) of the contract value of the work for each week or part of the week for which the contractor is in default.

The Engineer / consultant may however, at his discretion, allow the contractor such extension of time as he may decide (whose decision in writing shall be final and binding). The work shall within the stipulated period of the contract, be proceeded with by the contractor with due diligence to ensure good progress during the execution of the work.

After expiry of one half of the time allowed, the contractor shall complete at least 1/3 rd of the total value of work and after expiry of the $\frac{3}{4}$ period 2/3 of the total. volume of work shall be completed and for any default on the part of the contractor, the engineer shall realize compensation at his discretion with the maximum .of the compensation as stated above.

22. Extension of time:

If the contractor shall desire an extension of time for completion of the work on the ground of his having been unavoidably hindered in its execution or on any other ground, he shall apply in writing to the engineer within 15(fifteen) days of the date of hindrance on account of which he desires such extension and the engineer may, in his discretion, authorize such extension of time, as may in his opinion (which shall be final) be necessary. If the engineer is satisfied that the work cannot be completed by the contractor (or in the event of failure on the part of the contractor to complete the works)within the extended time allowed as aforesaid, the engineer shall be entitled, without prejudice to any other right remedy available in that behalf, to appropriate the contractor's security Deposit under clause 66 whether or not actual damage is caused by such default.

23.Final certificates :

On completion of the work, the contractor shall be furnished with a certificate by the engineer/consultant of such completion but no such certificate shall be given, nor shall the work be considered to be completed until the contractor shall have removed from the premises on which the work shall be executed, all scaffolding, surplus materials and rubbish and clean off the dirt from all wood work, doors, windows, walls floors or other part of any building work place, in upon or about which the work has been executed or of which he may have had possession or use for the purpose of the execution thereof, not until work shall have been measured by the engineer/ consultant whose measurements shall be binding upon and conclusive against the contractor. If the contractor shall fail to comply with the requirements of this clause as to removal of scaffoldings, surplus materials and rubbish and cleaning off dirt on or before the date fixed for the completion of work, the engineer may, at the expense of the contractor, remove such scaffoldings surplus materials and rubbish and dispose of the same as he thinks fit, and clean off such dirt as aforesaid and the contractor shall forth with pay the amount of all expenses so incurred, and shall have no claim in respect of any such scaffoldings or surplus materials as aforesaid expect for any sum actually realized by the sale thereof.

24. “On account payment”

The contractor shall be entitled to be paid monthly by way of “on account” payment only for such works as in the opinion of the engineer / consultant he has executed in terms of the contractor. All payment due on the engineer’s or the engineer’s representatives or consultant’s certificates of measurements shall. Subjected to any deduction, which may be made under these presents and shall further subject to retention of 10(ten) percent by way of security deposit for workmanship guarantee determined in terms of clause 11, provided always than the Engineer may by any certificate make any correction or modification in any previous certificate which shall have been issued by him and the Engineer may withhold any certificate if the works or any part thereof are not being carried out to his satisfaction.

25. “On account payment not prejudicial to final settlement”

‘On account’ payment made to the contractor shall be without prejudice to the final making up of the accounts and shall in no respect be considered or used as evidence of any facts stated in or to be inferred from such accounts nor of any particular quantity of work having been executed, nor of the manner of its execution being satisfactory.

26. “Payment to contractor’s bank, if so desired

Payment due to the contractor may, if so desired by him be made his bank instead of direct to him, provided that the contractor furnished to the engineer, (I) an authorisation in the form of legally valid documents such as power of attorney conferring authority on the bank received payment, and (ii)his own acceptance of the correctness of the accounts made out as being due to him by APL or his signature on the bill or the other claim preferred against APL before settlement by the Engineer of the account or claim by payment to the bank. The receipt given by such bank shall constitute a full and sufficient acquittance for the payment.

Receipt for payment made on account of a work, when executed by a partnership firm, must also be signed by the several partners, except that the contractors are described in their tender as a firm, in which case the receipts must be signed in the name of the firm by one of the partner, or by some person having authority to give effectual receipts for the firm.

The contractor shall have no claim for any interest or any other compensation with respect to any delay in payment of his interim or final bill or the refund of his Security Deposit, or in respect of any amounts which may be in APL's hands owing to any dispute between APL and the contractor.

27. Payment of lump-sum in estimate :

When the estimate on which a tender is made includes lump-sum in respect of parts of the work, the contractor shall be entitled to payment in respect of the items of work involved or the part of the work in question at the same rates as are payable under this contract for such item or if part the engineer/consultant may at his discretion pay such part of the lump-sum entered in the estimate as he may decide and the certificate in writing of the any sum or sums payable to him under the provisions of this clause.

28.APL lien on all money dues:

APL shall have lien on and over all or any money that may become due and payable to the contractor under these presents, and /or also on and over the security deposit or security amount or amount made under the contract and which may become repayable to the contractor under the condition in that behalf, here in contained, for on in respect on any debt or sum that may become due and payable to APL by the contractor either alone or jointly with another or other and either under this or under any other contract or transaction of any nature whatsoever between APL and the contractor. And further that APL, shall at all time be entitled to deduct the said debt or sum due by the contract from the money, securities or deposits which may become payable to the contractor under the presents.

29.Stores supplied by APL:

If the contract provides for the use of any special description of materials to be supplied from APL's stores or it is required that the contractor shall use certain stores, to be provided by APL shall be supplied with such materials and stores as required from time to time to be used by him for the purpose of this contract only and value of the full quantity of materials and stores so supplied at the rates specified in the notice inviting tender may be set off or deducted from any sums then due or thereafter to become due to the contractor under the contract, or otherwise or against or from the security deposit. All materials supplied to the contractor shall remain the property of

APL and shall not on any account be removed from the site of work and shall at all times be open for inspection by the engineer. Any such materials unused and in perfectly good condition at the time of the completion or determination of the contract shall be returned to APL's stores if by a notice in writing under his hand the engineer shall on require, but the contractor shall not be entitled to return any such materials without such consent and shall have no claim for compensation on account of any such materials so supplied to him as aforesaid being unused by him, or for any wastage in or damage to any such materials.

30. Return of APL's surplus materials to APL notwithstanding anything contained to the contrary in any or all the clauses of this contract where any materials for the execution of the contracts are procured with the assistance of APL by issue from APL's stock or purchase made against permit or license issued by the Govt. the contractor shall hold the said materials as trustee for APL and use such materials economically and solely for the contract and not dispose of them without the permission of APL and return, if required by the engineer, all surplus or unserviceable materials that may be left with him after the completion of the contract or at its termination for any reason whatsoever on being paid or credited such price as the engineer may determine, having due regards to the condition of the materials.

The price allowed to the contractor, however shall not exceed the amount charged to him excluding the storage charges, if any the decision of the engineer shall be final and conclusive. In the event of any breach of aforesaid condition to the contractor shall in addition to being liable to action for contravention of the terms of license or permit and or for criminal breach of trust, be liable to APL/Govt. for all Nomi's, advantage of profits resulting or which in the usual course would have resulted by reason of such breach.

31.Consumption of materials basis of calculation, After the completion of work the consumption of the materials would be checked on the basis of the critical calculation as follows-

For cement : The theoretical calculations for consumption of quantity of cement to be used shall be according to the APL's printed "statement quantity of cement to be used in different item of work."

For steel: In case of steel reinforcement steel used in the work as per design or as authorized by the engineer shall be measured. The theoretical quantity of steel as described above plus 5% wastage due to cutting in to pieces and over this theoretical quantity variation of plus /minus 5% shall be allowed due to wastage being or loss.

After allowing variations up to 5% for works up to Rs.2.00 lakhs 4% for works between Rs.2.00 lakhs and above 3% for works of Rs. 5.00 lakhs and above for excess use of cement and 5% for excess use of steel the difference of theoretical consumption and the total issues, rates mentioned the NIT.

32. Work to be executed in accordance with specifications, drawings orders etc.

The contractor shall execute the whole and every part the work in the most substantial and workmanship like manner and in every respect in strict accordance with the specification. The contractor shall also confirm exactly, fully and faithfully to the designs, drawing and instructions issued to him from time to time.

The contractor shall verify all dimensions shown on the drawing in case of any doubt, obtain required particulars (which may in any way influence his tender) from the engineer. Figured dimensions on drawings shall supersede measurements by scale and drawings showing details would prevail. Any special directions and specifications or any specific written instruction of the engineer shall supersede all else.

33. Alternations in specifications and design do not invalidate contract.

The engineer /consultant shall have power to make any alternations of submission from additions to or substitution from the original specifications, drawings, designs and instructions that may appear to him to be necessary or advisable during the progress of the work and contractor shall be bound to carry out the work in accordance with any instructions which may be given to him in writing signed by the engineer /consultant and alternations, commissions additions or substitutions shall not invalidate the contract and any alternated additional or substituted work which the contractor may be directed to do in the manner as specified as part of the work shall be carried out by the contractor on the same conditions and at the same rates that are specified in the tender for the main work.

The time for the completion of work may be extended by the engineer to the extent considered necessary by him and his decision shall be conclusive and binding as to such extensions.

34. Rates for extra items:

If the altered, additional or substituted work or any additional work required to be executed as a result thereof includes any class of work for which no rate is specified in this contract and the tender for the original work is percentage below/ above a specified schedule or rates, the altered, additional or substituted work required as aforesaid shall be chargeable at the rates entered in the said schedule below/ above the tendered percentage or if the item of work does not exist in the said schedule minus/plus the same percentage deduction / addition. If however, such class of work is neither entered in, nor can be analyzed on the basis of the said schedule, or if the tender is on item rates basis, then the contractor shall within seven days of the date of receipt of the order to carry out the work, inform the engineer / consultant of the rates which it is his intention to charge for such class of work and if the engineer / consultant does not agree to this rate and a rate cannot be mutually agreed upon between the contractor and APL engineer consultant shall by notice in writing be at liberty to cancel his order to carry out such class work and agree to carry it out in such manner as he may consider advisable provide always that if the contractor shall commence work or incur any expenditure in regard there to before the rates shall have been determined as lastly herein after mentioned that and in such case he shall be entitled to be paid in respect of the work carried out or expenditure incurred by him prior to the date of the determination of the rates as aforesaid according to such rate or rates only as well as fixed by the engineer/ consultant.

No deviations from specification stipulated in this contract shall be made or additional item or work shall be carried out by the contractor unless the rates or such substitute altered or additional item have approved in writing by engineer / consultant failing which APL shall not be liable for any claim on this account.

35. No compensation for alternation or restrictions of work to be carried out.

If at any time after the commencement of the work APL shall for any reason what so ever, not require the whole their as specified in the tender to be carried out, the engineer/ consultant shall given notice in writing of the far to the contractor whole shall have no claim to any payment or compensation what so ever on account of any profit or advantage which he might derive from the execution of work in full but which he did not derive in consequence of the full amount of the work not having been carried out, neither shall the contractor have any claim for compensation by reason of any alternations having been made in the original specifications, drawings, designs and instruction which shall involve any curtailment of the work as original contemplated.

36. Action and compensation payable in case of bad work-

If it shall appear to the engineer/ consultant or his subordinate in charge of the work that any work has been executed with unsound imperfect or unskillful workmanship or with materials of a any inferior description or that materials or articles provided by him for the execution of the work are unsound or of quality inferior to the contracted for or otherwise not in accordance with the contract, The contractor shall on demand in writing from the engineer / consultant specifying the work materials, articles complained of not with standing that the same may have been inadvertently passed carried and paid for forthwith rectify , or remove and reconstruction the work so specified in whole or in part as the case my require, or as the case may be to replace the materials or articles so specified in whole or in part as the case my require, or as the case may be to replace the materials or articles so specified and provide suitable materials or articles at his own cost and in the event of his failling to do so within a period to specified by the engineer / consultant in his demand aforesaid, the contractor shall be liable to pay compensation at the rate of one percent on the amount of the estimate for every day(not exceeding ten days) of his failure to do so and in the case of any such failure, the engineer / consultant may rectify or remove, and re-execute the work or remove and replace with other materials or articles, as the case may be at the risk and expenses of the contractor.

37. Work to be open to inspection:

All work under or in course of execution of executed in pursuance of the work contract shall, at all time be open to the inspection and supervision of the engineer/ consultant and his subordinates and the contractor shall at all times, during the usual working hours and at all other times at which reasonable notice of intention of the engineer / consultant or his subordinate to visit, the works shall have been given to the contractor either himself be present to receive order and instruction or have a responsible agent duly accorded in writing present for the purpose, orders given to the contractors agent shall be considered to have the same force as if they had been given to the contractors himself.

38. Notice to be given before work covered up:

The contractors shall give not less then five days notice in writing to the engineer /consultant or his subordinate in charge of the work before covering up or otherwise placing beyond the reach or measurement and work in order that the same may be measured and correct dimensions thereof the taken before the same is covered up or place beyond the reach of measurement and shall not cover up or place beyond the reach of measurement any work without the consent in writing of the engineer /consultant or his subordinate in charge of the work and if any work shall be covered or place beyond the reach or measurement without such notice having been given or consent obtained the same may be uncovered at the contractors expense or in default there of payment or allowance shall be made for such work or the materials with which the same was executed.

39. Contractor liable for damage done, and for imperfection for 3 months after certification

If the contractor or his work people or servants shall break, deface injure or destroyed part of the building in which they may be working or any buildings roads, road-kerbs, fence enclosures, water pipes cables, drains electric or telephonic post or wires, trees , grass and or any other property cultivated grounds, close to the premises which the work or any part of it is being executed , or if any damage shall happen to the work while in progress from any cause whatsoever, the contractor shall make the same good at his own expenses, or default the engineer / consultant may cause the same to be made good by other work man and deduct the expenses of which the certificate of the engineer / consultant shall be final)from a sums that may be then, or at any time thereafter become, due to the contractor or from his security deposits or the proceeds of sale thereof, or a sufficient portion thereof.

40. Contractor to supply all plant ladders scaffolding etc

The contractor shall supply at his own cost all materials(except such special materials, if any as may in accordance with this contract, be supplied from APL stores) plants, tools appliances, implements, ladders, tackel, scaffolding, shuttering, centering and temporary work requirites necessary for the proper executive of work, whether original altered or substituted and whether included in the specifications or other documents forming part of the contract or referred to in there conditions or not, or which may be necessary for the purpose of satisfying or complying with requirements of the engineer/consultant as to any matter as to which under there conditions is entitled or which he is entitled to require together with carriage therefore to an from the work. The contractor shall also supply without charge the requisite number of persons with the means and materials necessary for the purpose of getting out of works and counting, weighing and assisting in the measurement or examination at any time and from time to time of work or materials, failing his so doing, the same may be provided by the engineer / consultant at his the expenses of the contractor and expenses may be deducted from any money due to the contractor under the contract or from his security deposit. The contractor shall be entirely responsible for the true and perfect setting out and for the correctness of all levels, dimensions, alignments etc. of all parts of the work .If , at any time any error shall appear in any parts of the work, the contractor shall at his own cost, rectify such errors to satisfaction of the engineer/ consultant . The contractor shall also provide all necessary fencing and lights required to protect the public from accident, or otherwise shall be bound to bear the expenses of defense of every suit, action or other proceedings of law that may be brought by any person for injury sustained owing to neglect of the above precautions and to pay any damage, costs, which may with the consent. of the contractor , be paid to compromise any claim by any such person.

41. Provision of workmen's compensation Act:

In every case in which by virtue of the provisions of section 12 sub-section(1) of the workman's compensation Act, 1983 or any other law for the time being in force, APL is obliged to pay compensation to a workman

employed by the contractor in execution of the work, APL will recover from the contractor the amount of the compensation so paid and without prejudice to the right of APL under section 12, sub-section (2) of the said APL or any other law for the being in force APL shall be liberty to recover such amount or any sum due by APL to the contractor whether under this contract or otherwise APL shall not be bound to contest any claim made against it under section 12, sub-section (1) of the workman's compensation Act,1983.

42. APL not responsible for contractors employees-

The contractor shall strictly abide by the provisions of the employment Exchange (compulsory notification of vacancies) Act, 1959 and may employ such employees as he may think fit ,subject to the limitations and restrictions provided in the above said act and the employees so employed shall be employees of the contractor for all purpose whatsoever and shall not be deemed to be in the employment of APL for any purpose whatsoever . The contractor shall abide by all rules, laws and regulations that may be in force from time to time regarding the employment or conditions of services of the employees. If under any circumstance whatsoever APL is held liable or responsible in any manner whatsoever, for the default of omissions of the part of the contractor in abiding by the aforesaid rules, laws and regulations or-is held liable or responsible to the employees of the employees of the contractors in respect of the matter whatsoever APL shall be reimbursed by the contractor for the same, as also for any other expenses or costs incurred by APL. In any proceedings of litigation as a result of any claim, demand or act on the part of employees of the contractor APL shall be entitled to claim damages or compensation from the contractor.

43. Contractor's responsibility for the manner or execution of works.

Contractors shall be solely responsible for the manner and the method executing the work. The work shall be subject to the approval of engineer/consultant from time to time for purpose of determination of the question whether the work is executed by the contractor in accordance with the contract.

44. Sum payable by way of compensation without reference to Actual loss.

All sums payable by way of compensation under any of these conditions shall be considered as responsible compensation to be applied for the use

of APL without reference to the Actual loss or damage sustained and whether or not any damage at all have been sustained.

45. Action were no specification:

In case of any class of work for which there is no such specification laid down in the contract, such work shall be carried out in accordance with the instruction or the engineer/consultant.

46. Contractor's percentage whether applied to net or gross amount of bills.

In case the contract is at percentage below /above in special schedule, the percentage referred to the tender will be deducted from or added to the gross amount of the bills for work done.

47. Materials obtains from dismantling and escalation etc.

All materials (e.g. stone, boulders etc. obtained in the work of dismantling, excavation etc. shall be the property of APL and may be issued to the contractor (if the required the same for the work at rates approved by the engineer).

48. Cleanliness of the site

The contractor shall keep the site clean and free from rubbish to the satisfaction of the engineer/ consultant . All surplus materials rubbish etc. will be removed to places fixed by the engineer/consultant and nothing extra will be paid for it.

49. Inconvenience to the public-

The contractor shall not deposit materials on any site which may cause inconvenience, to the public. The engineer /consultant required the contractor to remove any materials which are considered by him to be a danger or inconvenience to the public. These are to be removed at the contractor's cost.

50. Contractor to pay for water required for work.

The contractor shall make his own arrangement at his own cost for water required for the execution of the contract. If the water required for the execution of the contract is supplied by APL to the contractor at any stage,

APL shall charge and recover from the contractor for the water supplied at the cost of fifty paise per hundred Rupees worth or total work executed by him.

51. Delay in supplying materials

Owing to difficulty in obtaining certain materials in the open market, APL will supply materials as per specification in the NIT at rate stated therein. The contractor should keep himself in touch with the engineer regarding the position in respect of the supply of materials. APL will not in any event be responsible or liable to the contractor for any delay in the supply materials.

52. Employment of certified plumber-

Certified plumber shall be employed by the contractor on all public health engineer health engineer works including own sewers, filtered and unfiltered mains and water supply and sanitary fittings and fixtures.

53. Employment of licensed Electrical Foreman-

The contractor shall employ a licensed electrical foreman to supervise all electrical installation works.

54. Cleaning, filling and leveling of site-

The site shown on the layout plain be cleared of all obstructions, loose stones, materials, rubbish of all kinds as well as brush wood . All holes or hollows whether originally existing or made removal of loose stones or brush wood shall be carefully filled up with earth wall rammed and leveled off as directed by the engineer. The contractor will not be entitled to any extra payment in this regards.
